# NEBULAS

NASA.GOV

The Eagle Nebula is known as pillars of creation and is part of a nebula actively forming stars!

The Carina Nebula; the yellow & white dots in the pink dust clouds are newly-formed stars!!

# EARTHOTERIC

## Shows on Amazon Prime

### 1. Amici

Get a view of life from the window of the International Space Station. Watch as our planet spins beneath you and you take in a variety of sounds ranging from driving rock, to soul, to hip hop and reggae.

### 2. Nader's Space

We begin this journey through space with images of the International Space Station floating above Earth, coupled with acoustic, natural sounding rhythms. A driving, electronic beat carries us through a simulation of satellite technology. Our trip soon moves to the dunes of Mars where atmospheric beats set the tone for stunning imagery.

### 3. Christmas Special

Relaxing images of space set to some of John Sayles' relaxing acoustic guitar renditions of the old Holiday classics.

### 4. Jiosa

Grammy Nominated Recording Artist / Producer, Mr. Denny Jiosa's Music has been mixed w / some of The coolest views of Earth and views from space, looking back at our planet - home. Sit back and watch The Earth turn and breeze by before your eyes, as you hear Mr. Jiosa's guitar relax your mode into a wonderful universe of ours.

**CHECK IT OUT!!!!!!!!!!**

These are just two of many beautiful photos online taken of the blood moon by people all over the world....
